

UNITED STATES DEPARTMENT OF COMMERCE
Economics and Statistics Administration
U.S. Census Bureau

Regional Office
Denver CO 80235-2377

April 27, 2016

Mr. Michael McMahon
City of Harrisburg
Planning and Zoning Administrator
301 E Willow St
Harrisburg, SD 57032

Dear Mr. McMahon,

The field data collection phase of the Special Census of the City of Harrisburg is nearly complete. As of today, the preliminary counts of population and housing are:

Preliminary Population: 5,468

Preliminary Housing Units: 1,899

In approximately 10 business days the Special Census Office will close. During this time the preliminary count may change slightly as we match each questionnaire with address listing books used by enumerators. Once local reconciliation is complete, questionnaires will be sent to the Census Bureau's National Processing Center to begin the data capture and tabulation process. Final population and housing unit counts may differ from the preliminary counts noted above and will be provided to you within approximately 90 days.

If you believe that residents or housing units may have been missed in the special census, please inform me in writing as soon as possible before the Special Census Office closes.

If you wish to discuss any other aspects of the census, please inform me. If you wish to speak to someone in the regional office, the telephone number is 720-962-3700.

Sincerely,

Cathy L. Lacy
Regional Director
